

Odeon Grande™

Odeon Grande offers impressive proportions and a design that delivers a first class experience for general admission, arthouse and VIP cinema audiences.

This extremely attractive range includes full width seats, reclining backrests and motorized back and leg adjustments.

Luxurious fabrics envelop every seat, providing a sophisticated comfort that audiences will remember long after the end credits roll.

All Camatic Seating products are designed, developed and built in-house by a team of professionals renowned for quality, leading edge technology and seamless installations around the world. From the Sydney Opera House to cinemas across the Americas, Camatic Seating puts audiences in designer comfort.

Proprietary commercial mechanisms

Odeon VIP mechanisms have been specifically designed by Camatic Seating engineers for commercial environments. Both the infinite locking gas assisted back reclining mechanism and fully motorized back and leg extension mechanism were designed to solidly fix the unit in position. This application vastly increases the load capacity as the mechanisms easily support patron loads on moving parts in a variety of challenging situations. The German gas springs and motors ensure breakdowns are almost nonexistent.

Removable covers and cushions

All VIP seating features removable covers to the high use areas including easily changeable footrest pads. To assist with cleaning, easily removable overlays are available for headrests and arm pads.

Moulded polyurethane foam

The specifically formulated polyurethane foam used to individually mould seats and backrest cushions provides the perfect balance between support and comfort. Our manufacturing process ensures the foam will not collapse or flatten out at any stage and will provide lasting comfort and ergonomic support.

Laminated fabrics

All Odeon covers are easily replaceable and feature foam backed fabric for stretch control and elimination of seam slippage and sagging.

Ease of installation

Although all components are removable for maintenance purposes, the seating units are typically delivered fully assembled, with the exception of the backrest to be retained with two fixing bolts. All Camatic Seating mechanisms are individually factory tested prior to delivery.

Odeon Grande™

Odeon Grande Wide Body

Odeon Grande Wide Body offers everything its name suggests – a full-width back that provides the ultimate in patron privacy and comfort.

Often used as two-seat settees in VIP Cinemas, the Odeon Grande Wide Body will also provide individual comfort and space when installed in longer, continuous rows.

Odeon Grande Reclining Backrest

An exceptionally stylish full recliner with padded club armrests and back and leg adjustment options, the Odeon Grande Reclining Backrest offers the utmost comfort in executive style seating.

This beautiful seat offers all the luxury and style of Odeon Grande Fixed with the added benefit of an easily accessible smooth reclining mechanism to further increase patron comfort. Stylish table and cup holder combinations are also available.

Odeon Grande Full Recliner

The proportions of Odeon Grande Full Recliner provide patrons with the largest seating dimensions available.

Individual electronic controls allow the patron infinite positioning of the backrest and leg extensions for the ultimate cinema experience. Soft overlay foam makes this stylish and expansive chair immediately impressive, while the individually moulded and ergonomically contoured core provides long term patron comfort.

Odeon Grande (Traditional) Full Recliner

When the time honoured look of the home-style recliner is desired, a traditional version of Odeon Grande Full Recliner is available.

Large intermediate tables or smaller individual tables at the ends of a settee are available in numerous shapes and finishes, as are the many other standard Full Recliner options.
